App Language	EN,DE,CZ,SK,PL,HU,SL
Connectivity	Bluetooth 4.2 / 2.4 GHz IEEE 802.15.1
Heureka PRODUCT NAME	Tesla Smart Composition Scale SC100 TSL-HC-SC100
Product ID	TSL-HC-SC100

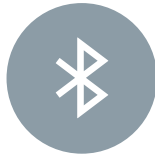

Black designer finish

There's no need to hide the TESLA Smart Composition Scale SC100 under your bathroom cabinet. It benefits from a tasteful and elegant design that will make it stand out everywhere.

18 MEASURED VALUES

You can examine body fat index, protein levels, metabolic age and many other measured parameters in the app. Following the historical development of data in graphical form really is a piece of cake.

BLUETOOTH PAIRING WITH THE APP

No longer do you have to be hunched over examining the display. The TESLA Smart Composition Scale TS100 sends all the measured data to the app for easy viewing.

Tesla Smart for Android and iOS

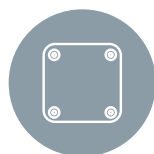

LED DISPLAY FOR IMMEDIATE CONTROL

In an instant the clear LED display gives you all the important information you require from your smart scale. You can view the measured data in the app right away or wait until later.

EASY EVALUATION OF INFORMATION FOR FURTHER PLANS

For each measured parameter, you will find information on how you are doing. Do you have an ideal body fat ratio? The app will tell you. Has your BMI gone a bit too high? In the app you can find out if you are over the limit. You'll find recommendations for each value in the app, which is useful when you're gaining muscle or on a weight loss diet.

ALL MEASURED DATA LITERALLY AT YOUR FINGERTIPS

The TESLA smart personal scale is equipped with an LED display that gives you immediate information about the measurements. But you'll appreciate the practicality of the scale most when transferring data to your smartphone or tablet. On the main page of the app, you will see the measured values by date and time. You can click through all the data and explore a detailed analysis.
